Tookan

Deliveries Made Smarter

#1 Last-mile delivery software for Enterprises & SMBs

The wave of local commerce is here.

The current scenario

With the latest shift in consumer preferences, brands are looking to bring themselves closer to customers and as a result, moving to local commerce. By selling direct to consumer, brands are able to achieve faster delivery, own their customers data, and improve customer satisfaction.

Jungleworks

The problems faced to move to local commerce.

01

Difficulty in creating a seamless online ordering experience.

02

Inefficient management of delivery operations.

03

Inability to build dialogue with customers & prospects.

Jungleworks

The Jungleworks Hyperlocal Stack.

The End-to-end local commerce solution to grow and scale a local business.

Features

ROUTE OPTIMIZATION

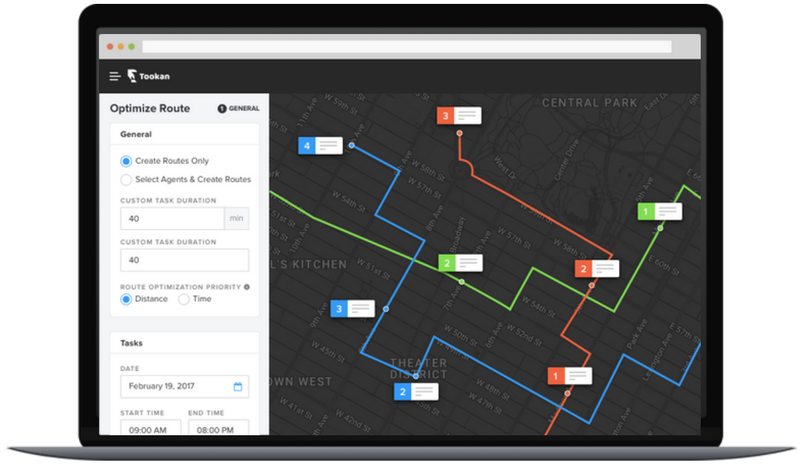
Retrieve the most efficient path of any mode of transportation with Tookan

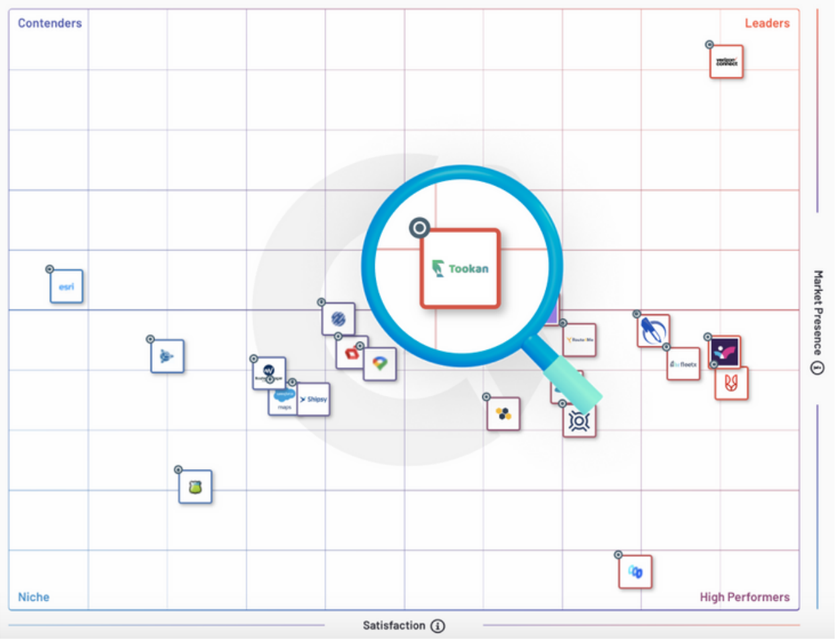
REAL-TIME TRACKING

Provide an exceptional delivery experience by allowing customers to track orders in real-time.

AUTOMATED DISPATCH

Eliminate manual orders by automating dispatch to nearby & available agents





G2 Grid® for Route Planning Software

Features

FLEET TRACKING

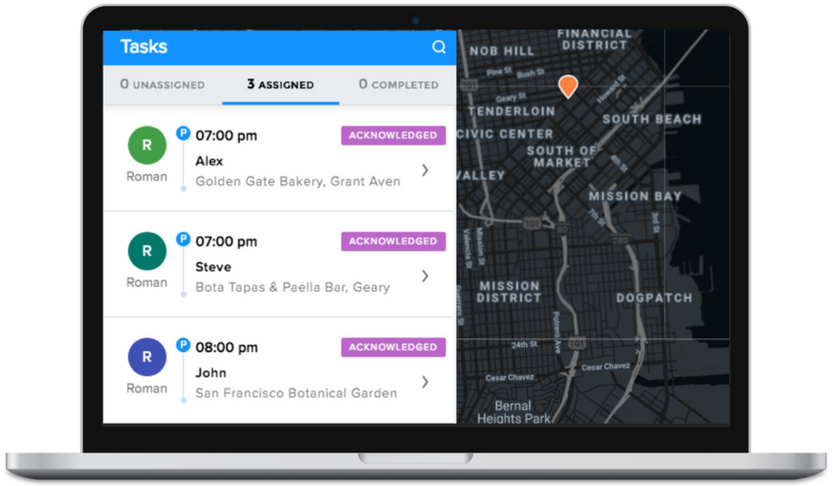
Monitor delivery requests, real-time status, routes, driver's activities & client reviews.

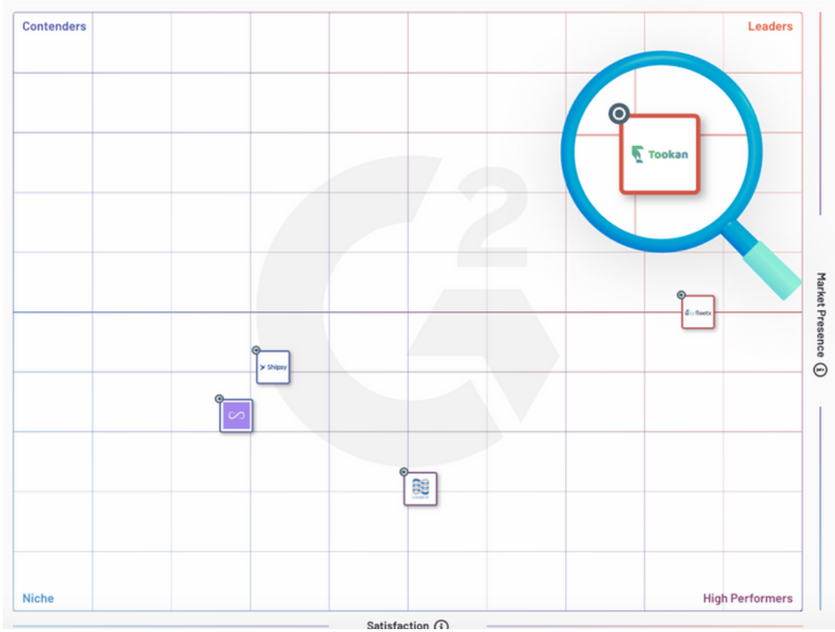
AGENT SCHEDULING

Map your entire agents' schedule on Manager's dashboard to check availability and schedules.

GEO-FENCING

Mark the operational area of your agents by creating multiple geofences





G2 Grid® for Fleet Tracking

Features

TASK POOLING

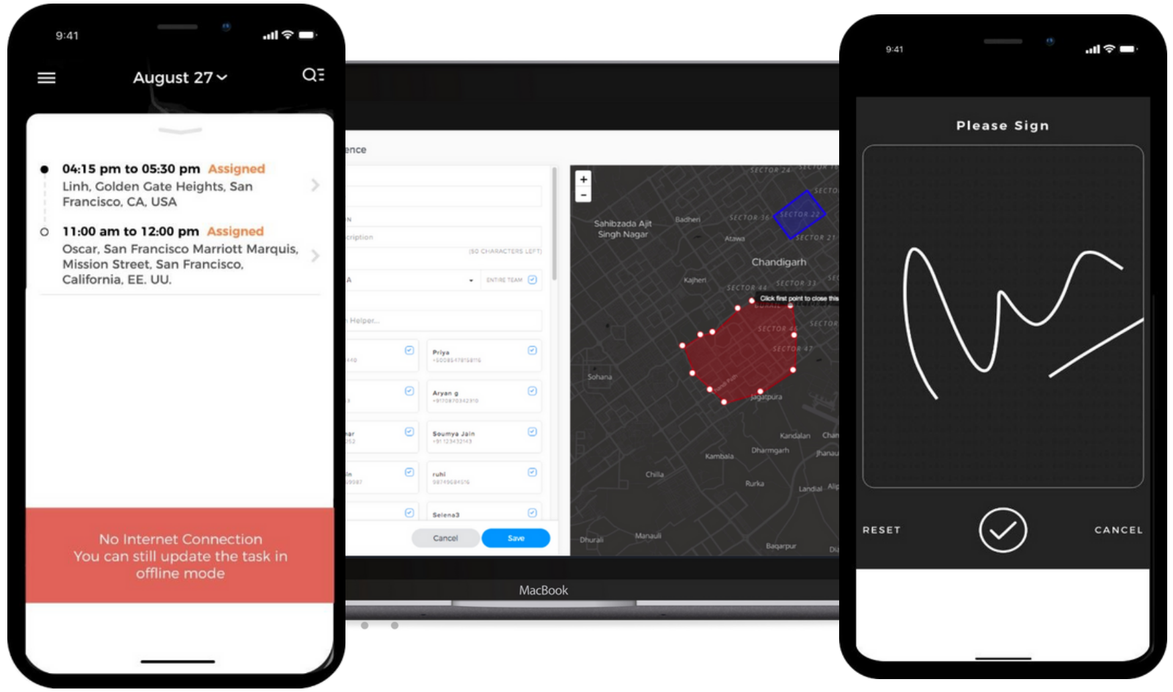
Reduce your delivery cost and order fulfilment time by enabling Pooling in your Batch-wise allocation logic.

INVENTORY MANAGEMENT

Orders placed by customers are checked against the inventory of all drivers and then the notification is sent with sufficient inventory.

PROOF OF DELIVERY

Allow your agents to scan barcodes, add notes, images and collect digital signatures.



AGENT WALLET

Agent Wallet provides you with a wallet to keep a record of all the transactions done by an agent.

Jungleworks

Success story:
A word from our customers.

Rafaella

Analyst

Tookan is a good solution for companies wanting to improve their delivery operations. It has the essential features of a pickup and delivery service, including auto allocation and the agent app.

We are having a good experience so far with the commercial support team, very helpful and fast to answer our queries.

Leon

Founder

Tookan is very easy to use and has tons of features that you can configure to your specific requirement.

Auto allocation of orders with tracking rider location has been very effective for us when using this platform.

Justin

CTO

Tookan has been a great product that is very customizable and functions well under high volume. The templates and settings make it very easy to work with the product to fit your unique use case. Both the dashboard and Agent App function really well, the documentation is great and if you have any questions, support is very responsive.

Wei

Consultant

I use Tookan to manage customers' orders and assignment requests. By managing all customer requests online, we are able to be more effective and efficient.

Tookan helps to take in customers' requirements and assignment requests on time and online. The available customization helps in dealing with different customer needs and demands.
